Diane Jones moved the Jefferson County Democrats membership endorse a “yes” vote for Initiative 1000. I-1000, would bring back affirmative action to Washington State. The legislature passed the legislation, however there was a campaign to require the issue to go to the ballot. The JCD E-Board and Political Action Committee recommend a yes vote, in case the initiative does come to the ballot. ### Gun Range Operating in South County without Permit

Peter Newland, PCO Coyle 200, rose to thank the JCD Central Committee (CC). The CC requested the County Board of Commissioners (BoCC) to live stream the Washington Growth Management Board appeal hearing [on the shooting range ordinance]. The JCD Chair Marty did great work to ensure that the live streaming happened. A quick update on the situation in South County: on the handout table are copies of the Tarboo Ridge Coalition recent communication to the BoCC. In 2018, the Coalition brought evidence to the County that the gun range was under construction, wetlands being filled, changes being made to the site without the proper permits. In March, the BoCC, and the Dept. of Ecology, toured the site and viewed various violations (illegal inadequate sewerage tank, filling of wetlands, outbuildings constructed). On June 17<sup>th</sup> the Coalition asked the BoCC to issue a stop work order to the owner, not only because of the violations, but also the fact that a 50 yard pistol range has been constructed, is currently in use illegally, there is training under way, shots are being fired, all with no permit. The Coalition

asks the BoCC to issue a stop work order. Please contact your Board of County Commissioner and give them your views on the matter.

#### Iran Sanctions

Pete Von Christierson, member rose to express concern about the US Sanctions against Venezuela and Iran. The sanctions are illegal under international law, under the Charter of the OAS, the UN charter, and domestic US law. The US sanctions law requires, are based on an emergency. There is no emergency. However people are being killed. 40,000 people thus far due to sanctions. We are allowing people to die of preventable disease, malnourished, living in poverty. There is no opposition in the US, including the Democratic Party. What can members do? We can develop a resolution to be put before the membership and go to the national party.
